## Peters/Schultz Start Fall Series Strong

### Dynamic Duo Take First in Slow but Close Contest

The team of Pete Peters and Rose Schultz has picked up right where they left off. After a dominating performance in the July 4th series, the pair have led off the fall series with a day one win.

Nearly matching them, Yours Truly and his straight from C-Fleet junior crew Vandita Rastogi won the first race but finished second to the Peters/Schultz machine in race two. Scott Johnston and his new crew Audrey Keene made their debut as a team, and briefly led race two before succumbing to the numbing of light air. To see full race results, look on page 2

## Fall Series Underway! Yay!

With wind speeds in minus five to plus two range, Y-Flyers had a lot of time to think about sail shape, boat balance, and tactics. In truth there were bursts of air in the plus five mph range, but most of the time it was a drag race with the emphasis on drag. It must be July.

It was, nonetheless, a very close competition among the Y's in both races as the boats bunched up near the gybe mark on both occasions. Pete and Rose stayed calm and gave the fleet a lesson in light air prowess. Vandita Rastogi sailed in her first race ever and helped Yours Truly to a bullet in the first race in a worst to first comeback.

1. Pete Peters/Rose Schultz	2 1	2.75
2. Mike Stratton/Vandita Rastogi	1 2	2.75
3. Roger Henthorn/Bobbie Bode	3 3	6
4. Kevin/Sean/Rosa	4 4	8
5. Scott Johnston/Audrey Keene	5 5	10

### Juniors Socialize at Kings Island

A week after junior camp ended, junior campers past and present met at Kings Island for some non-sailing thrills. Many are wearing their HSA Junior Camp orange shirts for the occasion.

In recent years, the post camp Kings Island trip has become a ritual. Here they are posed for a photo atop the Eiffel Tower replica. From left to right: Lydia Cox, Lauren Minella, Cosette Gunter, Kayla Draper, Megan DeArmon, Traci Hann, Ian Mahoney, Abby Casada, Wally Kelly, Sean Mahoney, Anna Vitt, Emma Rednour, Harrison Free, and, Kevin DeArmon, seated in from with his big prize.

### Juniors Jump into Race

Last Sunday was the first races of the Fall Series, but it was also a big day for junior sailing. Several of the juniors who participated in junior camp returned for the Sunfish part of the day.

Some preferred a bigger boat. At left Kevin DeArmon, Sean Mahoney, and Rosa Molleran, compete with the senior Y-Flyer racers. The wind was slow, but they all seemed just as happy just being on the water ... and using their giant water cannons to get the adults wet.

## Beach Day 2015!

Family Fun Day in the form of Beach Day is coming soon to Hueston Woods. The 4th Annual Beach Day Extravaganza is being called "The Great Pirate Bottle Chase" and is all new for 2015.

Bring family, bring friends, bring a chair bring a dish to share. We will once again set up the barbeque grill on the north end of the beach. HSA will provide the meats! And drinks. And paper ware.

Skippers meeting for all boats participating at 1:00 on Sunfish Island. Kind of sailboat doesn't matter. Game and rules explained at meeting.

1.

Launch boats and head to middle of lake in the designated Pirate enclave area. Horn sounds the beginning of the chase at about 1:30.

2.

Contest ends at second horn sounding from beach. Picnic begins when boats arrive for shade, food, and prizes for winning boats.

3.

Each boat entered should bring a 20 ft. piece of line and a bottle that floats and can be securely attached to that line.

### Beach Day "Great Pirate Bottle Chase" General Rules and Procedures

Each participating boat must have a 20 ft. line with a bottle attached to its end trailing from the stern. Each boat will be provided with five tennis balls numbered from 1-5. No boat may be attacked while another boat has it momentarily "captured". Use of water cannon and water balloons to fend off attackers is encouraged as is the wearing of pirate gear. The existence of bonus balls is a rumor. Game details announced at skippers meeting on August 9.

# Sunfish Crawl in First Fall Series

Paddle power was much in need last Sunday. The wind was once again up to its old July tricks, playing hard to get. Despite the absence of sail fuel, boats still made it around the course, thanks to a benevolent race committee which shortened the triangle and the lap number. Junior campers past and present came out for the event but probably found other things (water guns) to do on the water with all their free time. Still, it was "racing" and here are the results.
