

# Acton Action

## June 2025

The Callahan's were: In The House!!

June 1<sup>st</sup> racing experienced the professionalism of both Jerry and Joann as well as chair Brian!

We cannot  
Thank Jerry and  
Joann enough  
for their  
guidance on all  
things how to  
conduct a race!

Veteran racer Don  
Fecher showed Kevin  
DeArmon and his crew  
why nice guys finish  
last, when at the start  
Kevin made room for  
Don! That's okay, you  
will get him next time  
Kevin!

The Y-Flyer fleet saw veteran racers Pete Peters and Mike Stratton pulling out all the stops to stay ahead of Eric Anderson, Brett Hart and David Parrott, showing that Mike's winter classes are producing results!

In the Handicap division Brian Callahan, Dom Everaet and Jerry and Darrilynn Brewster all got a good start!

# FAMILY FUN DAY

Discovery of Acton Lake's Lochness Monster "Actie" from aboard Treasure Island!

Thank you Joe and Leigh Ann Fulford, Doug and Karolyn Hansen for all the planning and delicious ice cream!

A few brave sailors decided to go it alone in the search for Actie, her baby..and ice cream!

For a few years now the club has stepped up to help breast cancer survivors have a grand day out on our magical lake. HSAers know sailing is magical but many others just don't. As Pete Peters said during his remarks to our Breast Wishes Foundation wish recipients on June 21st, sailing on Acton Lake is a chance to disconnect from our electronic devices and commune with nature. The wind was in the "sporty" range that day and you showed them the magic of a lovely day out in nature with the wind and the sun.

The thank you note and phone call I received confirmed what I witnessed that day. That is, each and every one of you has a heart of gold and are responsible for all their smiles. Racing prowess may be one of our strengths, our club's "muscles" if you will, but this kind of volunteer work is our heart. You all have the biggest hearts. Well done!

While our Moonlight Sail may have been canceled due to lightning, that did not dampen the spirits of our sailors who all gathered on the dock near, or on the deck of, Treasure Island for a wonderful evening visit! It was later pointed out that gathering in a forest of tall aluminum trees may not have been our best option, fortunately nothing shocking happened!

The next morning the breakfast club met on A dock where Stephen and Zella Cook provided pancakes and delicious coffee and tea! Thank you Stephen and Zella!

# Brett Hart heads up our June Learn to Sail program

Our First time to have Andy and Bob Myer race with us!  
Welcome Andy and Bob!

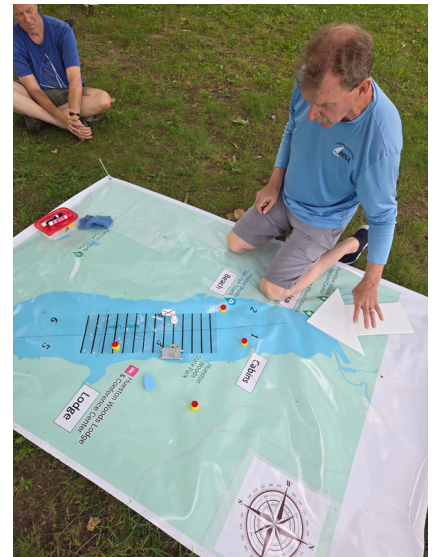

JP Jarecki sailing with one of our  
Breast wishes sailors!

# June 29<sup>th</sup> Clinic Day

Clinic day was well attended and informative. We learned all the traits of our new Baby Blue Safety boat and how operation of her will be much simpler. We also learned to properly cover and return her to the dry moorage area. Don Fecher, Joe Fulford and Dave Judy gave pointers on putting the Safety boat in the water as well as information on the proper tilt of the engine while in use. We also covered racing techniques, how to read the wind on the water and how to get a good start when racing presented by Joe Fulford, Don Fecher and Mike Stratton.

Last news item for this month.....Charmy.

Has anyone seen Charmy? Not to worry! We have news from Charlie DeArmon and Amy Marks! This fun loving and hard working couple has been in Wyoming helping to build a home for Amy's daughter out of straw and mud and such! Be sure to ask them about their adventures when they return! Here are some photos of the missing couple, if you see them please direct them to Acton Lake! (Llamas not missing!)
